## ACTIVATED CHARCOAL POWDER B.P./U.S.P.

FIRST  
AID

- ANTIPOISON/ANTITOXIN
- DRUG OVERDOSAGE/CHEMICAL INGESTION
- STOMACH UPSET / FLATULENCE / BLOATING
- DIARRHOEA
- DETOXIFICATION/CLEANING OF BOWEL & INTESTINES

**UNIMED ACTIVATED CHARCOAL** is a product of biotechnology. It is a fine, tasteless, odourless black powder. It has well earned reputation of being a universal antidote for drugs, chemicals and poisons. Orally administered, this fine black powder has an amazing ability to adsorb, extract and neutralize many more times its own weight in poisons, toxins, heavy metals, gases, particles and other chemicals. It is also applied for detoxification and cleaning of bowels and intestine. It is a home remedy for children and adults in cases of food poisoning, chemical ingestion, stomach upset and stooling.

**CAUTION:**

- It is not recommended for corrosives such as acids and alkalis
- Don't administer with drugs within 2 hours
- Don't give to a person who is unconscious, coughing or choking

**HOW TO USE:** Take 2-4 heaps of tablespoon into a glass of water, make to slurry and drink. Can be repeated hourly until symptoms subside.
